

Sprint 2 Report

ReplT

Rev 0: 11/03/24

Stop Doing:

- Pushing testing till the end of the sprint

Start Doing:

- Ensure coding standards are in effect before pushing to github

Keep Doing:

- making sure the documents are finished before TA meeting regardless of “due date”
- Scrum meetings right after class (everyone is available, early enough in day to get help for later)
- breakdown user stories ahead of time (results in less time spent editing mid-sprint, everyone understands what’s going on)

Work Completed:

- As a daily workout enthusiast, I should be able to edit previous workouts (transitioned into sessions)

Work Incompleted:

- As a new gym-bro, I should be able to create/start workout (unfinished testing)
- As a new gym browser, I should be able to see the machines in my current gym (was focused on getting gyms to appear, moved to sprint 3)
- As a local gym member, I should be able to add machine to a gym (wasn’t touched, moved to sprint 3)

Final Burnup Chart:

[illegible]
